

8520-C1 ADSL2+ Four Port Wireless

Unbeatable Price of **\$70** each*

8520-C1 is a highly integrated ADSL 2+ home gateway that shall meet requirements for customer premise equipment today. With compliance with various DSL standards, it is designed to interoperate with DSLAMs from major vendors. This router provides four 10/100 Base-TX Ethernet interfaces and 802.11b/g WLAN for easy connection to user's PC or LAN environment. Featuring port to PVC binding function and layer 2/3 quality of service (QoS) mechanisms to ensure real-time deliveries of multimedia IPTV services. With embedded firewall 8520-C1 delivers secure broadband Internet access for enterprises, telecommuters, home, and remote office workers with high-speed data transmission requirement.

FEATURES

- Conexant chipset compliant with most up to date ADSL/ADSL 2+ standards
